Ever Evolving Software Solution

Peace of mind for parents

Accountability for schools

Complete solution for bus operators

We are the **benchmark** system of the Bus Industry across Australia & New Zealand.

Designed, developed and drawn from the experience of over 7 Decades of working in the Bus Industry, **transportme™** is a patented Next Gen Software Solution that is utilised in over 1000 schools and bus companies across Australia and New Zealand since its inception in 2013.

**transportme™** is the most innovative solution in its space, and was the first to bring bus operators into the modern world of Ticketing, GPS Tracking, Smartcards, Driver Compliance and more through the use of apps and tablets.

# transportme™

The safety of Students, the peace of mind for Parents and the connectivity of Bus Operators to Schools and Governments was the reason behind the revolution that is **transportme™**

Connecting students' buses to parents was the driving force for the development of **transportme™**.

Providing this connection for **free** through the **transportme™** Passenger App on both the Apple App Store and Google Play Store was a breakthrough and a first in Australia. 7 second live tracking is now a reality.

Schools love us.

- Track their students buses
- Use their own smartcards to reconcile student travel and payments
- Create Student Manifests
- Time & Date Stamps of Student Boardings provides accountability
- Ability for Live Alerts to Parents and Schools
- Use for Regular Travel, Excursions, Sporting Events, Camps, and more

Parents love us.

- They can track their child's bus for free
- They can top up their child's smartcard with funds direct from the transportme™ Passenger App
- They can receive Push Notifications if their child's bus is on time or delayed
- Ability for Live Alerts for their child's boarding and de-boarding patterns

Bus Operators love us.

- The most affordable solution in the market
- 7 Second Live Tracking of their fleet
- Generate live reports at the push of a button
- Instant & future messages to 1 bus or their entire fleet
- Drivers can complete their Fit4Work Login, Pre-Departure Checks, End of Shift Checks and Defect Reporting all from the 1 system
- Complete Ticketing & Smartcard Solution
- Duress Alarm
- Historical GPS Tracking Information
- Overspeed Alerts
- Electronic Student Manifest
- Route Guidance Ability
- Electronic Work Diary Ability
