Our passenger app allows Parents to easily track buses in real time

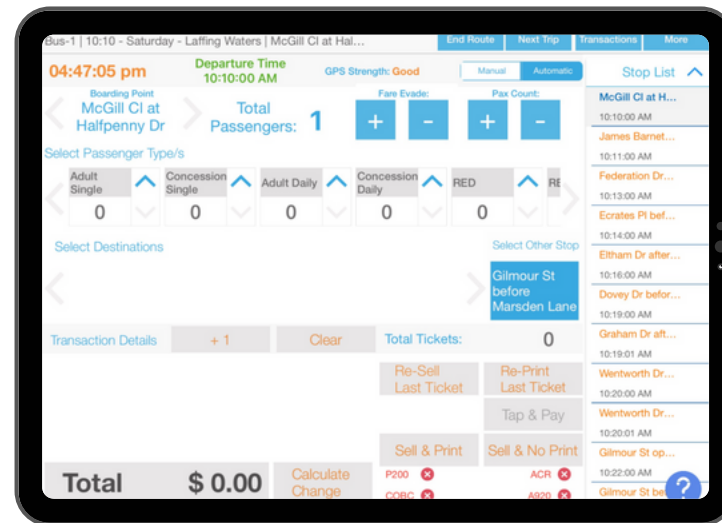

Our Mission

Our mission at **Transportme** is to provide a cost-effective and reliable transportation solution for schools and bus operators. We aim to streamline the process and enhance the overall experience for everyone involved by leveraging the latest technology and industry best practices. Our goal is to empower schools and bus operators to focus on delivering safe and efficient transportation for their students while making a positive impact on the communities we serve.

Our Services

For Parents & Students

The Transportme passenger app offers a range of useful features, including free bus tracking, live alerts for child's boarding and de-boarding patterns, and push notifications for delayed buses. Notably, it also allows users to conveniently top up their Smartcards directly from the app.

For Schools

Our solution enables schools to track student buses, reconcile payments with Smartcards, create electronic manifests, and send live alerts to parents and schools. It's a versatile tool for managing student transportation needs, including regular travel, excursions, and other events.

For Bus Operators

Our fleet management solution is affordable and comprehensive, with 7-second live tracking and instant report generation. Users can send messages, while drivers complete pre and end-of-shift checks. Additionally, it includes vehicle maintenance, ticketing, Smartcard capabilities, a duress alarm, GPS tracking, overspeed alerts, electronic student manifests, route guidance, and work diaries.
